

BALANCING LIFE WITH OI

9- 10 June 2023 / Stockholm

Topical meeting on the impact of pain in
osteogenesis imperfecta (OI)

Lack of understanding and poor management of pain severely impacts the quality of life of children and adults with osteogenesis imperfecta (OI).

Under the title “Balancing life with OI” we are organising a topical meeting on the neglected subject of the causes, assessment and management of pain and its impact on physical and mental health, sleep, fatigue, mobility, relationships/families and work/life balance for people living with OI.

SLEEP

FATIGUE

WORK / LIFE
BALANCE

MOBILITY

FAMILY &
RELATIONSHIPS

The topical meeting will offer the opportunity to present and discuss current research, treatment methods and other updates on OI-related pain.

The meeting format will comprise a mix of longer talks from invited speakers, shorter talks based on submitted abstracts, workshops, panel discussions and poster presentations.

Parts of the programme will be relevant for people working with other rare bone diseases.
