Industry Seminar – Hybrid Event

Access to Nordic test facilities for medtech and e-health

Are you in need of testing opportunities in the Nordics? Norwegian Smart Care Lab and the other Nordic Proof partners invite you to meet the Nordic health testbed network on June 10th 09:00-12:00 am.

Nordic Proof is a network of renowned testbeds for health and wellbeing products and solutions. Recently the network has expanded with significantly more testbeds being available to you as an industrial player.

Managed by Norway Health Tech, Nordic Proof offers access to professional and efficient test facilities throughout the Nordics and serves as a one point of entry to meet a variety of testing needs for products and solutions being developed by the health industry.

Welcome to this industry seminar to learn the opportunities available to you from existing and new Nordic Proof testbed partners. There will be one2one meeting opportunity with the respective Nordic Proof partners for those companies participating in-person in Stavanger.

DATE: Friday June 10th, 2022
VENUE: Innovasjonsparken Stavanger, Professor Olav Hanssens vei 7,
Bygg i3: Helse Campus Stavanger
AND online
REGISTRATION: [Registration link](#)

WHOM IS THE EVENT FOR

We aim the event for companies who are looking for testing services in a hospital or municipality in different Nordic countries. Come and find out more about these opportunities. Meet the Nordic Proof partner representatives presenting their services:

- Early-phase idea or prototype evaluation workshop
- Testing of welfare solutions
- Testing of Software and Ai Medical Devices
- Animal studies and Clinical investigations

AGENDA

08:30 Registration, light breakfast, networking, signing up for one2one (only for on-site participants)
